TERMS

Fixed fee only	No CPA, no revenue share and no negative carryover.
Payment in advance	Settled before publication, in cryptocurrency. Any major coin can be agreed, for example USDT, USDC, Bitcoin or Ethereum.
Independence	We do not publish scores. Payment never changes what we write. Claims we cannot verify are left out, even at a brand's request. If a brand requires a guaranteed favourable write-up, we are not the right platform.
Markets	No operator recommendations for countries where online gambling is banned or restricted. We can decline any brand or market.
Permanent placements	Live while accurate and lawful. We may remove or label a placement if the licence is revoked, the market is banned or a justified complaint is upheld.
No guarantees	We guarantee what we publish and for how long, not traffic, indexing or search positions.
